GAMERella + Global Game Jam
January 23-25
GAMERella workshops January 21
at collaboratory

GAMERella is inviting women, first-time jammers, and gender non-conforming game makers, as well as anyone who feels they haven't had a chance to make a game. GAMERella was conceived to prove that gamejams are the safest, most exciting environments in which to create games. It is a place to improve skills, try out risky and unconventional design ideas, meet other developers, but above all, have fun.
